# Neutralizing Whole Life Carbon and Improving Well-Being to Achieve the SDGs

## Purpose of the Conference

Achieving the SDGs and realizing sustainable buildings and cities require carbon neutrality throughout the whole lifecycle and the improvement of health and well-being for all people. This conference will provide a platform for participants to share advanced research findings, policies, technologies, and practices. We look forward to your participation and paper submissions.

## Aims and Scope

\*Please refer to the SBE25 Tokyo website (<https://www.sbe25tokyo.jp/>), for details on the paper submission themes.

### <Conference Themes>

1. **Whole Life Carbon Neutrality** and reduction of other environmental loads.
2. **Health and Well-Being Promotion** and improvement of environmental quality.

### <Submission Categories>

1. Emerging Technologies and Materials
2. Building Performance and Simulation
3. Sustainable Practices and Life Cycle Approaches
4. Smart Technologies and Automation
5. Environmental Quality and Human Well-being
6. Human Factors and Inclusive Design
7. Human-Nature Interaction
8. Climate and Resilience Strategies
9. Policy, Education, and Capacity Building
10. Case Studies and Best Practices

## SBE :

### Sustainable Built Environment Conference

SBE is an international conference related to the sustainability of buildings and cities. It is co-organized by four international organizations associated with buildings, cities, and the environment (CIB, iiSBE, FIDIC, and UNEP). The conference alternates between global and regional meetings on a three-year cycle, and SBE25 Tokyo is one of the regional conferences. The conference will be held in locations such as Minas Gerais, Zurich, Prague, Seville, and Trondheim in addition to Tokyo.
